

## Winter

We have been learning about the season of winter. We loved making crunchy footprints in the snow! We have been thinking about signs of winter and have been very busy in our classroom learning to make snow dough and investigating with ice in our water tray. We have also been learning about polar animals. We played games such as feed the penguins and snowman buttons. This helped with our counting skills. In design work we have used a variety of materials to create cold pictures and worked collaboratively on our large snowman model. We have had lots of fun playing in our new arctic area too.
