

# This week in Nursery

Week Ending 24/2/17

## **Welcome back after the half term holidays!**

It has been another busy week in the Nursery. We have loved sharing the children's wow moments. You all had very exciting holiday stories to tell.

This week we have centred our learning around homes. We have enjoyed learning about types of different homes and describing our favourite rooms.

We have been on a walk around school to look at some different types of homes. We looked at the homes and the numbers on the front doors. We have been playing lots of number games to recognise numbers 1-5 and to begin to order them correctly.

We have started to make some model homes using boxes and other materials. We hope to make a lovely display of houses and homes. If you have any more junk modelling materials we would be very grateful.

Our sound games this week have been lots of fun. The children are excellent in finding matching pairs. We have been learning to recognise the letter g and the sound it makes.

In class we have been using the I pads to support our counting skills and in number formation.

Next week we will be learning about animal homes and will be using the theme on the farm to explore this.

**Parents Evening Appointment times have now been confirmed. If you have not yet returned your slip please let me know to arrange your appointment.**
