

This week in Purple Class

3rd November 2017

In RE this week the children read the story of creation and Adam and Eve. They talked about the Garden of Eden and the reason God asked Adam and Eve to leave the garden.

In Maths both Year 1 and Reception have been working hard on length. Reception have been describing objects as long and short and ordering, shortest to the longest. Year 1 have been using cubes as a measure of different items. They have also been exploring the vocabulary related to length and measurement.

In English the Reception children have been continuing their phonics and learning new sounds. They have also been learning some high frequency words and have been writing these into short sentences.

In PE the children have started hockey skills. They have been learning how to correctly hold the stick and then use it to start and stop the ball. PE will sometimes be outside during this half term, children can wear long jogging pants and sweaters if they wish.
